EDUCATION

- **HIGH AMERICAN SCHOOL** // 2012 - 2015
Victoria College ~ Alexandria
Victoria College, Alexandria, was founded in 1902 under the impetus of the recently ennobled Evelyn Baring, 1st Earl of Cromer of the Barings Bank, that was heavily invested in Egyptian stability. For years the British Consul-General was ex officio on the board of Victoria College. The new college was to raise the standard of Imperial education and free it from the influences of the madrassas and the ubiquitous Jesuits, both of whom made the British foreign office uneasy. Among prominent subscribers to the project were members of the prominent internationalized Jewish and Maltese minority in Egypt including members of the Egyptian Royal family. Prior to the 1930s establishment of Baghdad College, members of the upper class of Iraq sent their children to Victoria College
